

REUSABLE FACE SHIELDS BY UPSTAGING

The COVID-19 pandemic has made it a challenge to find and obtain PPE. Upstaging Inc, typically an event production company located in the Chicagoland area, pivoted our business during this time of need to create solutions for those on the front lines. We worked to create a premium reusable face shield that is made from high quality material, comfortable to wear for extended periods of time, can be reused, and is made by our staff in Sycamore, IL. We have these available for purchase and are prepared to ship out immediately.

REUSABLE FACE SHIELD FEATURES

- Individually packaged PETG plastic shield is 13" wide x 11" tall.
- Name plate area on side to help avoid cross usage.
- Adjustable, comfortable, and durable headband. One size fits all.
- Comfortable, cleanable, closed cell foam forehead pad allows roof for glasses.
- Fog-free optically clear shield can be cleaned with non ammonia based cleaners and are environmentally friendly
- Assembled and packaged in the USA
- Can be branded with logo and tagline.
